## Summary

Software Developer with 2+ years of experience in building and deploying web applications using PHP (Laravel), HTML, CSS, JavaScript, and MySQL. Skilled in developing RESTful APIs, backend development, and integrating third-party services. Proficient in database management, performance optimization, and delivering secure, maintainable solutions. Passionate about learning emerging technologies and solving complex challenges collaboratively in fast-paced environments.

## Experience

### SRM TECHSOL PVT LTD

Software Engineer

JAN 2023 – Present

Lucknow, Uttar Pradesh

- Developed dynamic web applications using PHP (Laravel framework), jQuery, AJAX, and JavaScript, significantly enhancing user experience and performance.
- Developed RESTful APIs with Laravel and MongoDB for smooth data exchange and integration.
- Integrated third-party APIs, optimized performance with caching and query tuning, and collaborated with UX/UI teams to deliver responsive interfaces.

## Technical Skills

**Web Development:** HTML5, CSS3, PHP (Laravel), JavaScript, Node.js

**Database Management:** MySQL, MongoDB

**Scripting and Libraries:** jQuery, AJAX

**Operating Systems:** Windows 10, Windows 11

**Developer Tools:** Visual Studio Code, Sublime Text, Notepad++, Jira

## Projects

### RocketParrot | PHP, Laravel, MySQL, jQuery, AJAX

- Developed a multilingual news platform with role-based access control and distinct permissions for users.
- Implemented categories, commenting, and language support to improve content management and user interaction.

### 4meHealth | PHP, Laravel, MySQL, jQuery, AJAX

- Developed a comprehensive healthcare platform for managing patients, practitioners, and facilities, with features for appointments, prescriptions, and health records.
- Enabled real-time notifications and integrated functionality for practitioners to set availability, issue prescriptions, and manage consultations, as well as for patients to book appointments and request prescriptions.

### CA Tax | PHP, Laravel, MySQL, JavaScript, jQuery, AJAX

- Developed a tax management system where admins set questions with prizes, assign employees to users, and oversee tax-related tasks.
- Implemented features for users to register, complete profiles, upload documents, and calculate taxes, with payments required for each question.

### CharityAfrica | PHP, Laravel, MongoDB

- Built a donation platform with secure wallet systems, token-based giving, and cross-border donations.
- Developed and provided APIs to the mobile team for seamless integration with mobile apps.

### Document Management System (DMS) | Laravel, PHP, MySQL

- Designed a secure system for managing documents, user roles, and company data with role-based access control.
- Enabled admins to oversee companies, manage user permissions, and control document workflows.

## Education

Dr. A.P.J. Abdul Kalam Technical University, Lucknow

B.Tech (Computer Science and Engineering)

2019-2023

CGPA: 8.3
